FORM 10-Q

(Mark One)

☒ QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the Quarterly Period Ended June 30, 2025

OR

☐ TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

Commission File Number 001-37906

ORGANOGENESIS HOLDINGS INC.

(Exact Name of Registrant as Specified in Its Charter)

Delaware
(State or Other Jurisdiction of
Incorporation or Organization)

98-1329150
(I.R.S. Employer
Identification No.)

85 Dan Road
Canton, MA
(Address of principal executive offices)

02021
(Zip Code)

(781) 575-0775
(Registrant's Telephone Number, Including Area Code)

Not Applicable
(Former name, former address and former fiscal year, if changed since last report)

Securities registered pursuant to Section 12(b) of the Act:

Title of each class	Trading Symbol(s)	Name of each exchange on which registered
Class A Common Stock, \$0.0001 par value	ORGO	Nasdaq Capital Market

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes ☒ No ☐

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§ 232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files). Yes ☒ No ☐

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer	☐	Accelerated filer	☒
Non-accelerated filer	☐	Smaller reporting company	☐
		Emerging growth company	☐

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act ☐

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes ☐ No ☒

The number of shares of the registrant's Class A common stock outstanding as of July 31, 2025 was 126,857,709.

CAUTIONARY NOTE REGARDING FORWARD-LOOKING STATEMENTS

This Quarterly Report on Form 10-Q (this “Form 10-Q”) contains forward-looking statements. These statements may relate to, but are not limited to, expectations of our future results of operations, business strategies and operations, financing plans, potential growth opportunities, clinical development and commercialization of our product candidates, potential market opportunities and the effects of competition, as well as assumptions relating to the foregoing. Forward-looking statements are inherently subject to risks and uncertainties, some of which cannot be predicted or quantified. These risks and other factors include, but are not limited to, those listed under “Risk Factors.” In some cases, you can identify forward-looking statements by terminology such as “may,” “will,” “should,” “could,” “expect,” “plan,” “anticipate,” “believe,” “estimate,” “predict,” “intend,” “potential,” “might,” “would,” “continue” or the negative of these terms or other comparable terminology. These forward-looking statements are based on our management’s current expectations, estimates, forecasts and projections about our business and the industry in which we operate and our management’s beliefs and assumptions. These forward-looking statements are not guarantees of future performance or development and involve known and unknown risks, uncertainties and other factors that are in some cases beyond our control. As a result, any or all of our forward-looking statements in this Form 10-Q may turn out to be inaccurate. Factors that may cause actual results to differ materially from current expectations include, among other things, those listed under “Risk Factors” and discussed elsewhere in this Form 10-Q and in “Part I, Item 1A—Risk Factors” in our Annual Report on Form 10-K for the year ended December 31, 2024. These forward-looking statements speak only as of the date of this Form 10-Q. Except as required by law, we assume no obligation to update or revise these forward-looking statements for any reason, even if new information becomes available in the future. You should, however, review the factors and risks we describe in the reports we will file from time to time with the U.S. Securities and Exchange Commission (the “SEC”) after the date of this Form 10-Q.

As used herein, except as otherwise indicated by context, references to “we,” “us,” “our,” “the Company,” “Organogenesis” and “ORGO” will refer to Organogenesis Holdings Inc. and its subsidiaries.

ORGANOGENESIS HOLDINGS INC.

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Amounts in thousands, except share and per share amounts)

1. Nature of Business and Basis of Presentation

Organogenesis Holdings Inc. (“ORGO” or the “Company”) is a leading regenerative medicine and tissues innovations company focused on empowering healing through the development, manufacturing, and sale of products for the advanced wound care, and surgical and sports medicine markets. Several of the existing and pipeline products in the Company’s portfolio have Premarket Application (“PMA”) approval, or Premarket Notification 510(k) clearance from the United States Food and Drug Administration (“FDA”). The Company’s customers include hospitals, wound care centers, government facilities, ambulatory surgery centers (“ASCs”) and physician offices. The Company has one operating and reportable segment.

Unaudited Interim Financial Information

The accompanying unaudited condensed consolidated financial statements have been prepared by management in accordance with generally accepted accounting principles in the United States (“GAAP”), pursuant to the rules and regulations of the Securities and Exchange Commission (“SEC”) for interim financial statements. The interim condensed consolidated financial statements, in the opinion of management, reflect all adjustments of a normal recurring nature necessary for a fair statement of the results for the interim periods presented. Certain information and footnote disclosures normally included in financial statements prepared in accordance with GAAP have been condensed or omitted pursuant to such rules and regulations. However, the Company believes that the disclosures are adequate to make the information presented not misleading. These unaudited condensed consolidated financial statements should be read in conjunction with the audited consolidated financial statements and notes thereto, for the year ended December 31, 2024, included in the Company’s annual report on Form 10-K for the fiscal year ended December 31, 2024, which was filed with the SEC on February 27, 2025 (the “Annual Report”). The results for the six months ended June 30, 2025 are not necessarily indicative of the results to be expected for the year ending December 31, 2025, any other interim periods, or any future years or periods.

2. Summary of Significant Accounting Policies

The Company’s significant accounting policies are described in the Company’s audited consolidated financial statements as of and for the year ended December 31, 2024, and the notes thereto, which are included in the Annual Report. There have been no material changes to the significant accounting policies previously disclosed in the Annual Report other than the stock-based compensation, assets held for sale and government assistance policies detailed below.

These unaudited condensed consolidated financial statements include the accounts and results of operations of Organogenesis Holdings Inc. and its wholly-owned subsidiaries. All intercompany balances and transactions have been eliminated in consolidation.

From time to time, new accounting pronouncements are issued by the Financial Accounting Standards Board (“FASB”) or other standard setting bodies that the Company adopts as of the specified effective date. Unless otherwise discussed below, the Company does not believe that the adoption of recently issued standards have had or may have a material impact on its condensed consolidated financial statements or disclosures.

Use of Estimates

The preparation of consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements and the reported results of operations during the reporting periods. In preparing the consolidated financial statements, the estimates and assumptions that management considers to be significant and that present the greatest amount of uncertainty include: recognition and measurement of current and deferred income tax assets and liabilities; and the assessment of recoverability of long-lived assets, including impairment and write-downs. Actual results and outcomes may differ significantly from those estimates and assumptions.

Concentration of Credit Risk

Financial instruments that potentially subject the Company to concentration of credit risk consist of cash and cash equivalents. The Company invests its cash equivalents in highly rated money market funds. Deposits may exceed federally insured limits, and the Company is exposed to credit risk on deposits in the event of default by the financial institutions to the extent account balances exceed the amount insured by the Federal Deposit Insurance Corporation (“FDIC”). However, the Company sweeps cash daily overnight and diversifies among financial institutions to reduce such exposure.

Stock-Based Compensation

The Company measures stock-based awards granted to employees, non-employees, and directors based on the fair value of the awards on the date of grant and recognizes compensation expense for those awards over the requisite service period, which is generally the vesting period of the respective award. Prior to 2025, the Company only issued stock options, restricted stock units and restricted stock awards with service-based vesting conditions and recorded the expense for these awards using the straight-line method.

Beginning in 2025, the Company also began granting performance-based share awards to officers of the Company. As the outcome of each event has inherent risk and uncertainties, and a positive outcome may not be known until the event is achieved, the Company begins to recognize the value of the performance-based share awards when the Company determines the achievement of each performance condition is deemed probable, a determination which requires significant judgment by management. At the probable date, the Company records estimated cumulative expense to date, with remaining expense amortized over the remaining service period until achievement has occurred.

Assets Held for Sale

The Company classifies assets held for sale based on specific criteria as outlined in FASB ASC Topic 360, Property, Plant & Equipment. Properties classified as assets held for sale are recorded at the lower of their carrying value or their fair value, less costs to sell and are categorized on the balance sheet as current assets. Any properties classified as held for sale are not depreciated. Assets are generally classified as held for sale once management has actively engaged in marketing the asset and the sale is expected to close within one year.

Government Assistance

The Company accounts for government grants in accordance with International Accounting Standard (“IAS”) 20, Accounting for Government Grants and Disclosure of Government Assistance. Government grants are recorded as grant income when there is reasonable assurance that the Company will comply with the conditions attached to the grant arrangement and the grant will be received. The Company recognizes grant income using a systematic basis over the periods in which the Company recognizes the related expenses that the grants are intended to compensate.

Recently Issued Accounting Pronouncements Not Yet Adopted

In December 2023, the FASB issued ASU 2023-09, *Income Taxes (Topic 740): Improvements to Income Tax Disclosures*, which requires public entities to disclose specific categories in the effective tax rate reconciliation, as well as additional information for reconciling items that exceed a quantitative threshold. ASU 2023-09 also requires all entities to disclose income taxes paid disaggregated by federal, state and foreign taxes, and further disaggregated for specific jurisdictions that exceed 5% of total income taxes paid, among other expanded disclosures. ASU 2023-09 is effective for fiscal years beginning after December 15, 2024, with early adoption permitted. The Company is currently evaluating the impact of adopting ASU 2023-09 on its consolidated financial statements and related disclosures.

In November 2024, the FASB issued ASU 2024-03, *Income Statement-Reporting Comprehensive Income-Expense Disaggregation Disclosures (Subtopic 220-40): Disaggregation of Income Statement Expenses*. This standard requires entities to provide additional disclosure regarding certain expenses presented within the statements of operations, and aims to improve such disclosures and address requests from investors for more detailed information about the types of expenses incurred by public entities. As clarified by ASU 2025-01, the requirements of the guidance are effective for annual periods beginning after December 15, 2026, and interim periods within fiscal years beginning after December 15, 2027, with early adoption permitted. The Company is currently evaluating the impact of the adoption of ASU 2024-03 on its consolidated financial statements and related disclosures.

In July 2025, the FASB issued ASU 2025-05, *Financial Instruments - Credit Losses (Topic 326): Measurement of Credit Losses for Accounts Receivable and Contract Assets*. This standard introduces a practical expedient for the application of the current expected credit loss (“CECL”) model to current accounts receivable and contract assets. ASU 2025-05 is effective for annual periods beginning

after December 15, 2025 and interim periods within those annual periods, with early adoption permitted. The Company is currently evaluating the impact of adopting ASU 2025-05 on its consolidated financial statements and related disclosures.

3. Revenue

Revenue from Contracts with Customers

The following tables set forth revenue by product category:

	Three Months Ended June 30,	
	2025	2024
Advanced Wound Care	\$ 92,696	\$ 123,237
Surgical & Sports Medicine	8,083	6,997
Total net product revenue	<u>\$ 100,779</u>	<u>\$ 130,234</u>

	Six Months Ended June 30,	
	2025	2024
Advanced Wound Care	\$ 172,623	\$ 227,101
Surgical & Sports Medicine	14,849	13,109
Total net product revenue	<u>\$ 187,472</u>	<u>\$ 240,210</u>

For all periods presented, net product revenue generated outside the United States represented less than 1% of total net product revenue.

For the three and six months ended June 30, 2025 and 2024, the Company recorded group purchasing organization (“GPO”) fees of \$1,460, \$2,573, \$1,629 and \$3,023, respectively, as a direct reduction of revenue.

Grant Income

During the second quarter of 2025, the Company received a grant from a governmental agency totaling \$5,000 for the achievement of two milestones. The grant helps offset the costs of facility construction and expansion efforts, or related job creation objectives for the “Smithfield Facility” (see Note 13, *Leases*). The Company received a cash payment of \$2,500 for the achievement of the first milestone during the second quarter of 2025. Amounts received are included in cash flows from operating activities in the condensed consolidated statements of cash flows. As of June 30, 2025, the achievement of the second milestone and the payment of the remaining \$2,500 is considered probable, as such it is included in prepaid expense and other current assets on the condensed consolidated balance sheets. For the three and six months ended June 30, 2025, the Company recorded \$226 of grant income related to this grant. As of June 30, 2025, \$2,680 and \$2,094 of deferred income, respectively, are included in accrued expenses and other current liabilities and other liabilities on the condensed consolidated balance sheets.

4. Accounts Receivable, Net

Accounts receivable consisted of the following:

	June 30, 2025	December 31, 2024
Accounts receivable	\$ 131,535	\$ 119,437
Less — allowance for credit losses	(11,153)	(9,576)
	<u>\$ 120,382</u>	<u>\$ 109,861</u>

The Company’s allowance for credit losses is comprised of the following:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2025	2024	2025	2024
Balance at beginning of period	\$ 9,068	\$ 7,475	\$ 9,576	\$ 6,860

Additions (adjustments)	2,243	1,064	3,116	2,032
Write-offs	(159)	(27)	(1,542)	(383)
Recoveries	1	—	3	3
Balance at end of period	<u>\$ 11,153</u>	<u>\$ 8,512</u>	<u>\$ 11,153</u>	<u>\$ 8,512</u>

5. Inventories

Inventories, net of related reserves for excess and obsolescence, consisted of the following:

	June 30, 2025	December 31, 2024
Raw materials	\$ 13,919	\$ 13,252
Work in process	825	923
Finished goods	18,298	12,044
	<u>\$ 33,042</u>	<u>\$ 26,219</u>

Raw materials include various components used in the Company's manufacturing process. The Company's excess and obsolete inventory review process includes analysis of historical sales as compared to inventory levels, and working with operations to maximize recovery of excess inventory. During the three and six months ended June 30, 2025 and 2024, the Company charged \$2,384, \$6,093, \$1,954 and \$4,469, respectively, for inventory excess and obsolescence to cost of goods sold within the condensed consolidated statements of operations and comprehensive loss.

6. Property and Equipment, Net

Property and equipment consisted of the following:

	June 30, 2025	December 31, 2024
Leasehold improvements	\$ 66,773	\$ 63,342
Buildings	—	13,600
Furniture, computers and equipment	64,999	63,248
	131,772	140,190
Accumulated depreciation and amortization	(80,101)	(72,949)
Construction in progress	23,936	21,887
	<u>\$ 75,607</u>	<u>\$ 89,128</u>

Depreciation and amortization expense was \$3,734, \$7,178, \$3,366, and \$6,438 for the three and six months ended June 30, 2025 and 2024, respectively.

During the second quarter of 2024, the Company placed certain modules of its ERP system into service, the costs of which had previously been capitalized as construction in progress and are expensed over their anticipated useful life of five years. At such time, the Company determined that certain other modules within the ERP system and other internal-use software had no future use, and accordingly the Company recorded a write-down of \$3,959 of costs related to this internal-use software.

During the second quarter of 2024, the Company decided to pursue the potential sale of a purchased building, located on the Company's Canton, Massachusetts campus, on which it had previously paused construction work. The Company identified this change in expectation regarding the use of the building as an impairment indicator. The Company determined the asset group to be comprised of the building and associated construction, and performed the impairment assessment at the asset group level. The Company determined the impairment charge by comparing the fair value of the asset group to its book value and recorded an impairment charge of \$18,842 related to the building and associated unfinished construction work, allocated to each asset class within the asset group based on its relative carrying value. The Company determined the fair value of the building by estimating rental income, net of expenses to maintain the building over an anticipated lease term, as well as costs estimated to complete construction prior to commencement of the lease; these cash flows were then discounted over an anticipated lease term. See Note 18, *Fair Value Measurements*.

During the second quarter of 2024, the Company determined that the factors above constituted an impairment trigger relating to its remaining company-wide asset group. The Company performed a recoverability test in accordance with ASC 360, Property, Plant and Equipment. The estimated undiscounted cash flows directly attributable to the asset group exceeded its carrying value, and

accordingly the Company did not record any impairment related to this asset group. The Company did not record any impairment relating to its company-wide asset group during the three and six months ended June 30, 2025 and 2024.

[Table of Contents](#)

During the first quarter of 2025, the Company listed the property for sale and intends to complete the sale of these assets, which are separately presented in the Company's condensed consolidated balance sheets, within twelve months. During the three and six months ended June 30, 2025, the Company recognized a \$1,746 and \$8,313, respectively, write-down to adjust the carrying value of the building held for sale to its estimated fair market value based on observable market conditions, net of the estimated costs to sell on the condensed consolidated statements of operations and comprehensive loss. Management has determined that the planned sale does not represent a strategic shift having a major effect on the Company's operations and financial results and therefore does not meet the criteria for classification as discontinued operations in the first and second quarter of 2025.

7. Goodwill and Intangible Assets

Goodwill was \$28,772 as of June 30, 2025 and December 31, 2024. There was no impairment of goodwill recorded during the three and six months ended June 30, 2025 and 2024.

Identifiable intangible assets consisted of the following as of June 30, 2025:

	Original Cost	Accumulated Amortization	Net Book Value
Developed technology	\$ 32,620	\$ (27,716)	\$ 4,904
Customer relationships	10,690	(5,122)	5,568
Patent	7,623	(7,623)	—
Independent sales agency network	4,500	(4,500)	—
Trade names and trademarks	2,080	(1,799)	281
Non-compete agreements	1,010	(978)	32
Total	<u>\$ 58,523</u>	<u>\$ (47,738)</u>	<u>\$ 10,785</u>

Identifiable intangible assets consisted of the following as of December 31, 2024:

	Original Cost	Accumulated Amortization	Net Book Value
Developed technology	\$ 32,620	\$ (26,708)	\$ 5,912
Customer relationship	10,690	(4,588)	6,102
Patent	7,623	(7,623)	—
Independent sales agency network	4,500	(4,500)	—
Trade names and trademarks	2,080	(1,733)	347
Non-compete agreements	1,010	(903)	107
Total	<u>\$ 58,523</u>	<u>\$ (46,055)</u>	<u>\$ 12,468</u>

Amortization of intangible assets, calculated on a straight-line basis or using an accelerated method, which reflects the pattern in which the economic benefits of the intangible assets are consumed was \$841, \$1,683, \$834 and \$1,735 for the three and six months ended June 30, 2025 and 2024, respectively. The weighted average remaining useful lives for developed technology, customer relationships, trade names and trademarks, and non-compete agreements are 3.1 years, 5.3 years, 3.1 years, and 0.3 years, respectively, as of June 30, 2025.

8. Accrued Expenses and Other Current Liabilities

Accrued expenses and other current liabilities consisted of the following:

	June 30, 2025	December 31, 2024
Personnel costs	\$ 16,624	\$ 23,836
Royalties	5,578	7,381
Deferred grant income (Note 3)	2,680	—
Accrued taxes	175	4,286

Accrued milestone payment (Note 15)	—	2,500
Other	1,291	1,450
	<u>\$ 26,348</u>	<u>\$ 39,453</u>

9. Long-Term Debt Obligations

2021 Credit Agreement

In August 2021, the Company, as borrower, its subsidiaries, as guarantors, and Silicon Valley Bank (“SVB”), and the several other lenders thereto (collectively, the “Lenders”) entered into a credit agreement, as amended (the “2021 Credit Agreement”), providing for a term loan facility not to exceed \$75,000 (the “Term Loan Facility”) and a revolving credit facility not to exceed \$125,000 (the “Revolving Facility” and, together with the Term Loan Facility, the “Facilities”). In November 2024, the Company and the Lenders amended the 2021 Credit Agreement to allow for the issuance of the Convertible Preferred Stock, and to require the repayment of the Term Loan Facility within one business day of such issuance, among other terms (the “2024 Amendment”). In August 2025, the Company and the Lenders further amended the 2021 Credit Agreement (the “2025 Amendment”) to provide that so long as there are no outstanding borrowings under the Revolving Facility, the Consolidated Fixed Charge Coverage Ratio covenant (described below) shall not be tested for the fiscal quarter ended June 30, 2025. Notwithstanding this testing accommodation for the quarter ended June 30, 2025, the covenant is deemed to be in effect for purposes of any transaction contemplated by the 2021 Credit Agreement that requires pro forma compliance with the Consolidated Fixed Charge Coverage Ratio or the financial covenants generally and would preclude the Company from any additional borrowing under the Revolving Facility unless waived or further amended. The 2025 Amendment further requires the Company, its subsidiary guarantors, the administrative agent and certain of the Lenders prior to September 30, 2025 to enter into an agreement to reset certain financial covenants or implement new financial covenants and implement other modifications to the 2021 Credit Agreement and related documents, on terms and conditions reasonably acceptable to the administrative agent and such Lenders. The Lenders shall have no further obligation to make revolving extensions of credit under the 2021 Credit Agreement until such an agreement has been executed, and the failure of the Company to enter into such an agreement shall constitute an event of default under the 2021 Credit Agreement. Notwithstanding this obligation, the Company has the right to terminate the 2021 Credit Agreement for its convenience prior to such date, and it expects that the cash on hand and other components of working capital as of June 30, 2025, plus net cash flows from product sales will be sufficient to fund the Company’s operating expenses, capital expenditure requirements and debt service payments for at least 12 months beyond the filing date of this Form 10-Q.

The Company’s obligations to the Lenders are secured by substantially all of the Company’s assets, including intellectual property. Capitalized terms used herein and not otherwise defined are defined as set forth in the 2021 Credit Agreement, as amended by the 2024 Amendment.

Advances made under the 2021 Credit Agreement were either SOFR Loans or ABR Loans, at the Company’s option. For SOFR Loans, the interest rate was a per annum interest rate equal to the Adjusted Term SOFR plus an Applicable Margin between 2.00% to 3.25% based on the Total Net Leverage Ratio. For ABR Loans, the interest rate was equal to (1) the highest of (a) the Wall Street Journal Prime Rate, (b) the Federal Funds Rate plus 0.50% and (c) the Adjusted Term SOFR rate plus 1.0%, *plus* (2) an Applicable Margin between 1.00% to 2.25% based on the Total Net Leverage Ratio.

The 2021 Credit Agreement required the Company to make consecutive quarterly installment payments equal to the following: (a) from September 30, 2021 through and including June 30, 2022, \$469; (b) from September 30, 2022 through and including June 30, 2023, \$938; (c) from September 30, 2023 through and including June 30, 2025, \$1,406 and (d) from September 30, 2025 and the last day of each quarter thereafter until August 6, 2026 (the “Term Loan Maturity Date”), \$1,875. The Company prepaid the Term Loan Facility in November 2024, and amounts borrowed under the Term Loan Facility may not be re-borrowed.

The Company must pay in arrears, on the first day of each quarter prior to August 6, 2026 (the “Revolving Termination Date”) and on the Revolving Termination Date, a fee for the Company’s non-use of available funds (the “Commitment Fee”). The Commitment Fee rate is between 0.25% to 0.45% based on the Total Net Leverage Ratio. The Company may elect to reduce or terminate the Revolving Facility in its entirety at any time by repaying all outstanding principal and unpaid accrued interest.

Under the 2021 Credit Agreement, as amended by the 2024 Amendment, the Company is required to comply with certain financial covenants including the Consolidated Fixed Charge Coverage Ratio and Consolidated Total Net Leverage Ratio, tested quarterly. In addition, the Company is also required to make representations and warranties and comply with certain non-financial covenants that are customary in loan agreements of this type, including restrictions on the payment of dividends, repurchase of stock, incurrence of indebtedness, dispositions and acquisitions.

As of June 30, 2025 and December 31, 2024, the Company had no outstanding borrowings under the Term Loan Facility and no outstanding borrowings under the Revolving Facility.

[Table of Contents](#)

The Company recorded debt issuance costs and related fees of \$604 in connection with entering into the Term Loan Facility, which were recorded as a reduction of the carrying value of the Term Loan Facility on the accompanying condensed consolidated balance sheets and amortized to interest expense over the expected term of the Term Loan Facility. Upon repayment of the Term Loan Facility, the remaining balance of these debt issuance costs of \$215 was recorded as a loss on debt extinguishment in the condensed consolidated statements of operations and comprehensive loss and is included within selling, general and administrative expenses. In connection with entering into the Revolving Facility, the Company recorded debt issuance costs and related fees of \$1,223, which are recorded as other assets and are being amortized to interest expense through the maturity date of the Revolving Facility.

10. Convertible Preferred Stock

On November 12, 2024, the Company entered into a subscription agreement (the “Subscription Agreement”) with Avista Healthcare Partners III, L.P. (“Avista Onshore”) and AHP III Orchestra Holdings, L.P. (together with Avista Onshore, the “Investors”, and each an “Investor” and now related parties of the Company) pursuant to which the Investors purchased 130,000 shares of the Company’s newly-created Series A Convertible Preferred Stock, par value \$0.0001 per share (“Convertible Preferred Stock”), for a purchase price of \$1,000 per share, or aggregate gross proceeds of \$130,000 to the Company, prior to deduction of commissions, fees and expenses (the “Offering”). The net proceeds will be used to fund strategic growth initiatives including, but not limited to, operating and commercial activities, clinical development programs, working capital, capital expenditures, debt repayment and for general corporate purposes. In addition, \$25,479 of the net proceeds were used to fund the repurchase of an aggregate of 7,921,731 shares of Class A common stock from certain existing stockholders of the Company. See Note 11, *Stockholders’ Equity and Stock-Based Compensation*.

Pursuant to the Certificate of Designations of Series A Convertible Preferred Stock (the “Certificate of Designation”), each share of Convertible Preferred Stock is initially convertible into 263.7358 shares of Class A common stock, subject to adjustment as provided therein. Until the Company received stockholder approval, as contemplated by Nasdaq listing rules, with respect to the issuance of shares of Class A common stock upon conversion of the Convertible Preferred Stock in excess of the limitations imposed by such rules (collectively, the “Ownership Limitations”), holders of the Convertible Preferred Stock (“Preferred Stockholders”) could not convert the Convertible Preferred Stock into a number of shares of Class A common stock in excess of 26,502,042 shares, which represented 19.99% of the outstanding shares of Class A common stock at the time of signing the Subscription Agreement, or to the extent such conversion would result in a Preferred Stockholder beneficially owning greater than 19.99% of the Company’s then-outstanding shares. During the second quarter of 2025, the Company’s shareholders approved the issuance of shares of Class A common stock upon conversion of the outstanding shares of Convertible Preferred Stock in excess of the Ownership Limitations. Consequently, the Company’s obligation to make certain cash-in-lieu payments in connection with a conversion of Convertible Preferred Stock that would otherwise have resulted in the issuance of shares of Class A common stock in excess of the Ownership Limitations is no longer applicable. These changes in contractual terms didn’t change the fair value of the Convertible Preferred Stock. As of June 30, 2025, Preferred Stockholders can convert the Convertible Preferred Stock into an aggregate of 36,051,283 shares of Class A common stock. The Convertible Preferred Stock remains convertible at the option of the Company after the second anniversary of issuance if the closing price of the Company’s Class A common stock equals or exceeds 200% of the conversion price for twenty trading days out of a period of thirty consecutive trading days.

The Company recognizes changes in the redemption value of the Convertible Preferred Stock, which include accretion of the associated issuance costs and accrual of unpaid dividends using the effective interest method, over the period from the issuance date to the earliest redemption date, November 12, 2031. Any accrued but unpaid dividends will become part of the liquidation preference of the Convertible Preferred Stock, as set forth in the Certificate of Designation. As of June 30, 2025, the Company had not paid any dividends in cash, and all such dividends had been accrued and added to the liquidation preference of the Convertible Preferred Stock. During the six months ended June 30, 2025, the Company increased the carrying value of the Convertible Preferred Stock by \$5,558 which resulted in a corresponding decrease to additional paid-in-capital during the same period.

11. Stockholders’ Equity and Stock-Based Compensation

Common Stock

As of June 30, 2025, the issued shares of Class A common stock include 728,548 treasury shares that were reacquired in connection with the redemption of redeemable shares in March 2019. The 7,921,731 shares of Class A common stock repurchased in November 2024 pursuant to the Stock Repurchase Agreements and the Additional Stock Repurchase Agreement were retired and returned to authorized and unissued status.

Stock Incentive Plans

On November 28, 2018, the Board of Directors of the Company adopted, and on December 10, 2018 the Company’s stockholders approved, the Organogenesis 2018 Equity Incentive Plan (the “2018 Plan”). At the adoption of the 2018 Plan, a total of 9,198,996 shares of Class A common stock was authorized to be issued (subject to adjustment in the case of any stock dividend, stock

[Table of Contents](#)

split, reverse stock split, or similar change in capitalization of the Company). In June 2022, the 2018 Plan was amended to increase the number of shares of Class A common stock reserved for issuance by 7,826,970 shares. In June 2024, the 2018 Plan was amended to increase the number of shares of Class A common stock reserved for issuance by 15,900,000 shares.

The Organogenesis 2003 Stock Incentive Plan (the “2003 Plan”), provided for the Company to issue restricted stock awards, or to grant incentive stock options or non-statutory stock options. Effective December 10, 2018, no additional awards may be made under the 2003 Plan.

Stock-Based Compensation Expense

Stock options awarded under the stock incentive plans expire 10 years after the grant date and typically vest over four or five years. Restricted stock units awarded typically vest over four years.

Stock-based compensation expense was \$2,542, \$5,909, \$2,568, and \$4,975 for the three and six months ended June 30, 2025 and 2024, respectively. The total amount of stock-based compensation expense was included within selling, general and administrative expenses on the condensed consolidated statements of operations and comprehensive loss.

Restricted Stock Units (RSUs)

The Company granted 1,853,844 and 1,914,335 time-based restricted stock units to its employees, executives and members of the Board of Directors in the six months ended June 30, 2025 and 2024, respectively. Each restricted stock unit represents the contingent right to receive one share of the Company’s Class A common stock. A majority of the restricted stock units will vest in four equal annual installments. The fair value of the restricted stock units was based on the fair market value of the Company’s Class A common stock on the date of grant.

The following table summarizes the Company’s restricted stock units activity since December 31, 2024:

	Number of Shares	Weighted Average Grant Date Fair Value
Unvested at December 31, 2024	4,529,330	\$ 3.40
Granted	1,853,844	3.53
Vested	(1,582,670)	3.76
Canceled/Forfeited	(10,352)	3.39
Unvested at June 30, 2025	4,790,152	\$ 3.33

As of June 30, 2025, the total unrecognized compensation cost related to unvested restricted stock units expected to vest was \$13,543 and the weighted average remaining recognition period for unvested awards was 2.62 years.

Performance Share Units (PSUs)

In the three months ended March 31, 2025, the Company granted performance share units (“PSUs”) as part of its stock-based compensation program. The PSUs vest annually based on the achievement of specific performance goals as set forth in the applicable award agreement. Based on the extent to which the performance goals are achieved, vested shares may range from 0% to 200% of the target award amount. If the performance conditions are not met or are not expected to be met, recognized compensation expense associated with the grant will be reversed. The fair value of each PSU granted is the closing stock price on the date of grant and the PSUs are subject to a one-year vesting period. However, performance targets are measured independently for the three year period, where each tranche is tied to distinct performance metrics established for the applicable year. The annual performance targets are established during the first quarter of the applicable year. In addition to interim annual targets, the awards include a catch up provision whereby if, at the end of the three-year period, the Company achieves a certain average annual revenue compounded growth rate the entire performance share award will vest, regardless of the interim target performance.

As of June 30, 2025, the Company determined that the 2025 performance target was probable of being achieved. The Company granted 198,900 PSUs to its executives in the six months ended June 30, 2025, which represented the 2025 tranche of target award.

The activity of PSUs is set forth below:

	Number of Shares	Weighted Average Grant Date Fair Value
Unvested at December 31, 2024	—	\$ —
Granted	198,900	3.53
Vested	—	—
Canceled/Forfeited	—	—
Unvested at June 30, 2025	198,900	\$ 3.53

As of June 30, 2025, the total unrecognized compensation cost related to unvested PSUs expected to vest was \$356 and the weighted average remaining recognition period for unvested awards was 0.51 years.

Stock Options

The stock options granted during the six months ended June 30, 2025 and 2024 were 1,558,694 and 2,640,601, respectively.

The following table summarizes the Company's stock option activity since December 31, 2024:

	Number of Shares	Weighted Average Exercise Price	Weighted Average Remaining Contractual Term (in years)	Aggregate Intrinsic Value
Options outstanding as of December 31, 2024	10,563,880	\$ 4.74	7.26	\$ 2,521
Granted	1,558,694	3.53	—	—
Exercised	(20,016)	1.24	—	37
Canceled/Forfeited	(122,780)	6.10	—	—
Options outstanding as of June 30, 2025	11,979,778	\$ 4.48	7.19	\$ 5,518
Options exercisable as of June 30, 2025	6,355,751	\$ 5.40	6.03	\$ 2,791
Options vested or expected to vest as of June 30, 2025	11,072,300	\$ 4.57	7.07	\$ 5,115

The aggregate intrinsic value of stock options is calculated as the difference between the exercise price of the stock options and the fair value of the Company's Class A common stock for those stock options that have exercise prices lower than the fair value of the Company's Class A common stock.

The weighted-average grant-date fair value per share of stock options granted during the six months ended June 30, 2025 and 2024 was \$1.89 and \$1.89, respectively. The total fair value of options vested during the six months ended June 30, 2025 and 2024 was \$4,884 and \$4,089, respectively.

As of June 30, 2025, the total unrecognized stock compensation expense related to unvested options was \$6,786 and was expected to be recognized over a weighted-average period of 2.57 years.

12. Loss per Share

Basic earnings per share ("EPS") is calculated by dividing net income (loss) attributable to common stockholders by the weighted-average number of common shares outstanding during the period. Diluted EPS is calculated by dividing diluted net income (loss) attributable to common stockholders by the weighted-average number of common shares outstanding for the period, including

[Table of Contents](#)

potential dilutive common shares. The Company calculates diluted EPS using the treasury stock method which includes consideration of unrecognized compensation expenses as additional proceeds.

Basic and diluted net loss attributable to the Class A common stockholders was calculated as follows:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2025	2024	2025	2024
Numerator:				
Net loss	\$ (9,392)	\$ (17,043)	\$ (28,235)	\$ (19,143)
Accretion of redeemable convertible preferred stock to redemption value	(129)	—	(250)	—
Cumulative dividend on redeemable convertible preferred stock	(2,681)	—	(5,308)	—
Net loss attributable to common stockholders	\$ (12,202)	\$ (17,043)	\$ (33,793)	\$ (19,143)
Denominator:				
Weighted-average common shares outstanding — basic and diluted	126,853,536	132,573,153	126,576,130	132,217,463
Net loss per share—basic and diluted	\$ (0.10)	\$ (0.13)	\$ (0.27)	\$ (0.14)

The Company's potentially dilutive securities include the Convertible Preferred Stock, unvested RSUs and PSUs, and stock options to purchase shares of Class A common stock. As the Company had a net loss in the periods presented, the potentially dilutive securities have been excluded from the computation of diluted net loss per share as the effect would be anti-dilutive. Therefore, the weighted-average number of common shares outstanding used to calculate both basic and diluted net loss per share attributable to common stockholders is the same for these periods. The Company excluded 16,968,830 for three and six months ended June 30, 2025 and 16,016,636 for three and six months ended June 30, 2024, of potential shares of Class A common stock from the computation of diluted EPS as they were anti-dilutive. For the three and six months ended June 30, 2025, 36,051,283 shares of Class A common stock available upon conversion of Convertible Preferred Stock were excluded from the diluted EPS calculation as they were anti-dilutive.

13. Leases

The Company's leases consist primarily of real estate, equipment and vehicle leases.

On January 1, 2013, the Company entered into finance lease arrangements with 65 Dan Road SPE, LLC, 85 Dan Road Associates, LLC, Dan Road Equity I, LLC and 275 Dan Road SPE, LLC for office and laboratory space in Canton, Massachusetts (the "Related-Party Leases"). 65 Dan Road SPE, LLC, 85 Dan Road Associates, LLC, Dan Road Equity I, LLC and 275 Dan Road SPE, LLC are related parties as the owners of these entities are also directors, former directors and/or stockholders of the Company. In August 2021, the Company purchased the 275 Dan Road property.

In November 2024, the Company entered into a lease for a facility in Smithfield, Rhode Island, comprising manufacturing and office space (the "Smithfield Facility"). The initial lease term is approximately sixteen years, with two ten-year renewal options, not considered probable of exercise at lease inception, and a right of first offer to purchase the Smithfield Facility in the event that its owner markets it for sale. The undiscounted minimum lease payments are \$102,645, and the Company is entitled to a tenant improvement allowance of up to \$18,376 for its planned build out of the manufacturing space, expected to be completed in fiscal 2027. The lease of the office space commenced at lease inception, and in connection therewith, the Company recorded a right-of-use asset and associated lease liability of \$3,425. On April 29, 2025, the Company entered into definitive agreements related to certain state and local tax incentives for its Smithfield Facility and, as a result, the Company no longer has the unilateral right to terminate the lease for a payment to the landlord of \$1,250.

14. Segment Information

The Company's performance is reported in one segment. During 2025, there have been no changes to the Company's basis of segmentation or in the basis of measurement of segment income (loss). Prior period segment expense amounts have been recast to reflect the method for allocating expenses to segments in the current period.

[Table of Contents](#)

	Three Months Ended June 30,		Six Months Ended June 30,	
	2025	2024	2025	2024
Net product revenue	\$ 100,779	\$ 130,234	\$ 187,472	\$ 240,210
Grant income	226	—	226	—
Less:				
Cost of goods sold	27,630	29,198	51,353	57,894
Clinical expense	3,954	8,593	7,981	14,469
Sales and marketing	48,941	53,549	96,974	103,831
General and administrative	24,028	22,157	47,662	43,296
Other segment items ^(a)	5,844	33,780	11,963	39,863
Segment net loss	(9,392)	(17,043)	(28,235)	(19,143)
Reconciliation of segment net loss:				
Reconciling items	—	—	—	—
Consolidated net loss	\$ (9,392)	\$ (17,043)	\$ (28,235)	\$ (19,143)

(a) Other segment items include: research and development related payroll taxes and benefits, research and development related rent and other facilities expense, research and development related depreciation and amortization, write-down to fair value for asset held for sale, impairment of property and construction, write-down of capitalized internal-use software costs, other income (expense), net, and income tax benefit (expense).

15. Commitments and Contingencies

License and Manufacturing Agreement

In November 2023, the Company entered into a trademark license and manufacturing agreement with Vivex Biologics, Inc. (“Vivex”) to sell its CYGNUS Dual (“Dual”) and CYGNUS Matrix (“Matrix”) products, with the option to license the VIA Matrix (“VIA”) products. In March 2024, the Company exercised the option to license VIA, and accordingly in July 2024, entered into the first amendment to the trademark license and manufacturing agreement (together with the original agreement, the “Vivex Agreement”).

The Company paid an upfront licensing fee to Vivex to sell Dual and Matrix, and also agreed to pay a fixed milestone payment for Dual in the event that its average sales price (“ASP”) is published by certain government agencies for a specified period of time, which the Company determined was probable. Additionally, the Company pays a low double-digit royalty on the Net Sales of Dual and VIA, and a high single-digit royalty on the Net Sales of Matrix, respectively, during the royalty term, as defined in the agreement with Vivex. The royalty term is commensurate with the initial term of the contract and will continue for each subsequent renewal period. The initial term of the agreement expires on December 31, 2026 and can be renewed for up to five additional one-year terms.

The Company recorded \$5,000 for the payment of the upfront licensing fee and \$5,000 for the payment of the VIA option and milestone within prepaid and other current assets and other assets. These amounts are recognized as expense on a straight-line basis over the estimated life of the arrangement, which the Company determined to be three years, commensurate with the initial term of the contract.

Royalties

In October 2017, the Company entered into a license agreement with a third party. Under the license agreement, the Company is required to pay royalties based on a percentage of net sales of the licensed product that occur, after December 31, 2017, through the expiration of the underlying patent in October 2026, subject to minimum royalty payment provisions.

The Company recorded total royalty expense of \$5,599, \$10,621, \$7,417, and \$12,364 during the three and six months ended June 30, 2025 and 2024, respectively, within selling, general and administrative expenses on the condensed consolidated statements of operations and comprehensive loss.

Legal Matters

In conducting its activities, the Company, from time to time, is subject to various claims and also has claims against others. In management’s opinion, the ultimate resolution of such claims would not have a material effect on the financial position, operating results or cash flows of the Company. The Company accrues for these claims when amounts due are probable and estimable.

16. Related Party Transactions

Lease obligations to affiliates, purchase of assets under a finance lease with an affiliate, and renewal of leases with affiliates are further described in Note 13, *Leases*.

In November 2024, the Company repurchased 7,921,731 shares of Class A common stock from certain existing stockholders of the Company, including certain of its directors and their affiliates. These transactions are further described in Note 11, *Stockholders' Equity and Stock-Based Compensation*.

17. Taxes

The Company is principally subject to taxation in the United States. The Company has a history of net operating losses both federally and in various states and began utilizing those losses to offset current taxable income in 2020. As net operating loss carryovers become limited or are fully utilized, the Company will accrue current federal and state income tax expense. The Company's wholly owned Swiss subsidiary, Organogenesis GmbH, is subject to taxation in Switzerland and has a transfer pricing arrangement in place with Organogenesis Inc., its U.S. parent.

The income tax rate for the six months ended June 30, 2025 was 24.9%, an increase from the U.S. statutory rate of 21% primarily due to tax adjustments related to executive compensation and other nondeductible expenses, partially offset by research and development tax credit incentives. The income tax benefit (expense) for the three and six months ended June 30, 2025 and 2024 was \$2,442, \$9,382, \$(2,503), and \$(260), respectively.

The One Big Beautiful Bill Act ("OBBA") was enacted on July 4, 2025 and the Company is in the process of evaluating the future impact of these tax law changes on our condensed consolidated financial statements.

18. Fair Value Measurements

During the second quarter of 2024, the Company determined that a purchased building and unfinished construction work had been impaired and recorded an impairment charge of \$18,842 to record the building and unfinished construction work at its then fair value of \$13,600 for impairment purposes. The Company determined the fair value of the building by estimating rental income, net of expenses to maintain the building over an anticipated lease term, as well as costs estimated to complete construction prior to commencement of the lease; these cash flows were then discounted over an anticipated lease term, which represents a Level 3 measurement. The significant unobservable quantitative inputs to the fair value of the building at the time of the impairment are as follows:

Unobservable input	Range
Discount rate	8.0%
Terminal capitalization rate	6.5%
Operating expense ratio	24.3% - 32.9%

For more information, see Note 6, *Property and Equipment, Net*.

Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations.

The following discussion and analysis should be read in conjunction with our financial statements and accompanying notes included in this Form 10-Q and the financial statements and accompanying notes thereto and Management’s Discussion and Analysis of Financial Condition and Results of Operations included in our Annual Report on Form 10-K for the fiscal year ended December 31, 2024, filed with the SEC, on February 27, 2025. Please refer to our cautionary note regarding forward-looking statements on page 3 of this Form 10-Q, which is incorporated herein by this reference.

Unless the context otherwise requires, for purposes of this section, the terms “we,” “us,” “our,” “the Company,” “Organogenesis” and “ORGO” will refer to Organogenesis Holdings Inc. and its subsidiaries as they currently exist.

Overview

Organogenesis is a leading regenerative medicine and tissue innovations company focused on empowering healing through the development, manufacturing, and sale of products for the advanced wound care and surgical and sports medicine markets. Our products have been shown through clinical and scientific studies to support and in some cases accelerate tissue healing and improve patient outcomes. We are advancing the standard of care in each phase of the healing process through multiple breakthroughs in tissue engineering and cell therapy. Our solutions address large and growing markets driven by aging demographics and increases in comorbidities such as diabetes, obesity, cardiovascular and peripheral vascular disease. We offer our differentiated products and in-house customer support to a wide range of health care customers including hospitals, wound care centers, government facilities, ASCs and physician offices. Our mission is to provide an integrated portfolio of healing and tissue solutions that improve lives while lowering the overall cost of health care.

We offer a comprehensive portfolio of products in the markets we serve that address patient needs across the continuum of care. We have and intend to continue to generate data from clinical trials, real-world outcomes and health economics research that validate the clinical efficacy and value proposition offered by our products. Several of our existing and pipeline products in our portfolio have PMA, or 510(k) clearance from the FDA. Given the extensive time and cost required to conduct clinical trials and receive FDA approvals, we believe that our data and regulatory approvals provide us with a strong competitive advantage. Our product development expertise and multiple technology platforms provide a robust product pipeline, which we believe will drive future growth.

In the Advanced Wound Care market, we focus on the development and commercialization of advanced wound care products for the treatment of chronic and acute wounds in various treatment settings. We have a comprehensive portfolio of regenerative medicine products capable of supporting patients from early in the wound healing process through wound closure regardless of wound type. Our Advanced Wound Care products include Apligraf for the treatment of venous leg ulcers (“VLUs”) and diabetic foot ulcers (“DFUs”); Dermagraft for the treatment of DFUs (manufacturing and distribution currently suspended pending transition to a new manufacturing facility or engagement of a third-party manufacturer); PuraPly AM and PuraPly XT as antimicrobial barriers and native, cross-linked extracellular matrix (“ECM”) scaffold for a broad variety of wound types; CYGNUS Dual as a dual-layered amniotic membrane that promotes an optimal environment for wound healing; CYGNUS Matrix as a dehydrated placental allograft that promotes an optimal environment for wound healing; and VIA Matrix, Affinity, Novachor, and NuShield placental allografts to address a variety of wound sizes and types as a protective barrier and ECM scaffold. We have a highly trained and specialized direct wound care sales force paired with comprehensive customer support services.

In the Surgical & Sports Medicine market, we are leveraging our broad regenerative medicine capabilities to address chronic and acute surgical wounds and tendon and ligament injuries. Our Sports Medicine products include NuShield for surgical applications in targeted soft tissue repairs; and Affinity, Novachor, PuraPly MZ, PuraPly AM, and PuraPly SX for management of open wounds in the surgical setting. We currently sell these products through independent agencies and our direct sales force.

Dermagraft

As previously disclosed, manufacturing of Dermagraft was suspended in the fourth quarter of 2021 and sales of Dermagraft were suspended in the second quarter of 2022. We currently plan to transition our Dermagraft manufacturing to our newly-leased biomanufacturing facility in Smithfield, Rhode Island, which we expect will begin in 2027, and will result in substantial long-term cost savings. We expect to resume sales of Dermagraft by the end of 2027. If there are significant delays in the build out of the Smithfield Facility or in approval of the facility for manufacturing of Dermagraft, it could have an adverse effect on our future consolidated net product revenue and results of operations.

Local Coverage Determinations and Centers for Medicare & Medicaid Services (CMS) Proposed Rule

On April 25, 2024, seven Medicare Part A/B Administrative Contractors (“MACs”) published new proposed local coverage determinations (“LCDs”) for skin substitute grafts/cellular and tissue-based products (“CTPs”) for the treatment of DFUs and VLUs in

the Medicare population. These LCDs were finalized by the MACs on November 14, 2024, and were originally set to become effective on February 12, 2025. However, on January 24, 2025, the MACs announced a delay in the implementation of the LCDs until April 13, 2025, and on April 10, 2025, the MACs announced another delay in the implementation of the LCDs until January 1, 2026. Under the

[Table of Contents](#)

new LCDs finalized in November 2024, should they take effect in their current form, a total of eighteen products would remain covered, including our Apligraf and Dermagraft products for DFUs and VLUs, and our Affinity and NuShield products for DFUs; however, more than 200 products would be classified as “non-covered,” including our PuraPly, PuraPly AM, PuraPly XT, Novachor, TransCyte, Dual and Matrix products for DFUs and VLUs. The LCDs as finalized apply only to DFU and VLU indications for skin substitute products; coverage for other indications would remain subject to case-by-case review of medical necessity by the MACs if the LCDs take effect. It is uncertain if there will be further delays in implementing the new LCDs and/or if the new LCDs will be revised or rescinded going forward. If implemented, the LCDs could materially impact utilization of these products, our business, and our revenue. Any future changes or other developments related to these or other LCDs also could affect utilization of our products, our business, and our revenue.

In July 2025, CMS issued proposed rules that announce and solicit comments on proposed policy changes for Medicare payments under the Physician Fee Schedule (“PFS”) and Hospital Outpatient Prospective Payment System (“OPPS”), and other Medicare Part B issues, effective on or after January 1, 2026. For calendar year 2026, CMS has proposed to pay for skin substitute products as incident-to supplies when they are used as part of a covered application procedure paid under the PFS in the non-facility setting or under the Medicare OPPS in the hospital outpatient department setting. CMS also proposed to align skin substitute categorization consistent with their FDA regulatory status, such as 361 HCT/Ps, PMAs and 510(k)s. CMS indicated that it believes grouping and paying for skin substitute products based on relevant product characteristics, consistent with their FDA regulatory status, recognizes the clinical and resource differences in product types and would incentivize competition to create more innovative products, while also resulting in significant savings to the Medicare Trust Fund. CMS proposed, for calendar year 2026, to use a single payment rate reflecting the highest average for these three categories of skin substitute products to ensure it is not underestimating the resources involved with furnishing these services. For future years, CMS intends to propose payment rates that differentiate between the three FDA regulatory categories. CMS is proposing to implement these policy changes in both the non-facility setting paid under the PFS and the hospital outpatient department setting paid under OPPS to remain consistent across these different sites of care. While we believe CMS’ proposed payment structure will curb abuse under the current system, and the resulting rapid escalation in Medicare spending, and ensure a much-needed consistent payment approach across sites of care, the changes could also materially impact utilization of our products, our business, and our revenue.

License And Manufacturing Agreement

We have a trademark license and manufacturing agreement with Vivex for Dual, Matrix, and VIA. We paid an upfront licensing fee to Vivex to sell Dual and Matrix, and we also agreed to pay a fixed milestone payment for Dual in the event that its ASP is published by certain government agencies for a specified period of time, which we remitted in January 2025. Additionally, we are required to pay a low double-digit royalty on the Net Sales of Dual and VIA, and a high single-digit royalty on the Net Sales of Matrix, respectively, during the royalty term, as defined in the Vivex Agreement. The royalty term is commensurate with the initial term of the contract and will continue for each subsequent renewal period. The initial term of the agreement expires on December 31, 2026 and can be renewed for up to five additional one-year terms.

Components of Our Condensed Consolidated Results of Operations

In assessing the performance of our business, we consider a variety of performance and financial measures. We believe the items discussed below provide insight into the factors that affect these key measures.

Net product revenue

We derive our net product revenue from our portfolio of Advanced Wound Care and Surgical & Sports Medicine products. We primarily sell our Advanced Wound Care products through direct sales representatives who manage and maintain the sales relationships with hospitals, wound care centers, government facilities, ASCs and physician offices. We primarily sell our Surgical & Sports Medicine products through third party agencies. As of June 30, 2025, we had approximately 233 direct sales representatives and approximately 175 independent agencies.

We recognize revenue from sales of our Advanced Wound Care and Surgical & Sports Medicine products when the customer obtains control of our product, which occurs at a point in time and may be upon procedure date, shipment, or delivery, based on the contractual terms. We record revenue net of a reserve for returns, discounts and GPO rebates, which represent a direct reduction to the revenue we recognize.

Several factors affect our reported revenue in any period, including product, payer and geographic sales mix, operational effectiveness, pricing realization, marketing and promotional efforts, the timing of orders and shipments, regulatory actions including healthcare reimbursement scenarios, competition and business acquisitions.

[Table of Contents](#)

Grant income

Grant income relates to a grant the Company received from a governmental agency during the second quarter of 2025 related to its Smithfield Facility. We expect to recognize grant income through 2027 as the Company recognizes the related expenses that the grant is intended to compensate.

Cost of goods sold and gross profit

Cost of goods sold includes personnel costs, product testing costs, quality assurance costs, raw materials and product costs, manufacturing costs, and the costs associated with our manufacturing and warehouse facilities. The changes in our cost of goods sold correspond with the changes in sales units and are also affected by product mix.

Gross profit is calculated as net product revenue less cost of goods sold and generally increases as revenue increases. Our gross profit is affected by product and geographic sales mix, realized pricing of our products, the efficiency of our manufacturing operations, and the costs of materials used and fees charged by third-party manufacturers to produce our products. Regulatory actions, including healthcare reimbursement scenarios, which may require costly expenditures or result in pricing pressures, may decrease our gross profit.

Selling, general and administrative expenses

Selling, general and administrative expenses generally include personnel costs for sales, marketing, sales support, customer support, and general and administrative personnel, sales commissions, incentive compensation, insurance, professional fees, depreciation, amortization, bad debt expense, royalties, information systems costs, gain or loss on disposal of long-lived assets, and costs associated with our administrative facilities. We generally expect our selling, general and administrative expenses to continue to increase due to increased investments in market development and the geographic expansion of our sales forces as we drive for continued revenue growth.

Research and development expenses

Research and development expenses include expenses for clinical trials, personnel costs for our research and development personnel, expenses related to improvements in our manufacturing processes, enhancements to our currently available products, and additional investments in our product and platform development pipeline. We expense research and development costs as incurred.

Impairment and write-down expenses

Impairment and write-down of property relates to the pending sale of one of our buildings located on our Canton, Massachusetts campus that was adjusted to fair market value based on current market conditions. We recorded impairment and write-down of the property during the second quarter of 2024 and first and second quarter of 2025. Write-down of capitalized internal-use software costs consists of the development costs for certain modules of our ERP system that were determined to have no future value. We recorded this charge during the second quarter of 2024.

Other income (expense), net

Other income (expense), net comprises primarily of interest income generated from our interest-bearing sweep accounts offset by amortization of debt discount and debt issuance costs.

Income taxes

We account for income taxes using an asset and liability approach. Deferred income taxes reflect the net tax effects of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for income tax purposes. Valuation allowances are provided when necessary to reduce net deferred tax assets to an amount that is more likely than not to be realized.

In determining whether a valuation allowance for deferred tax assets is necessary, we analyze both positive and negative evidence related to the realization of deferred tax assets including projected future taxable income, recent financial results and estimates of future reversals of deferred tax assets and liabilities. In addition, we consider whether it is more likely than not that a tax position will be sustained on examination by taxing authorities based on the technical merits of the position. We believe that our net U.S. deferred tax assets did not require a valuation allowance as of June 30, 2025 and December 31, 2024.

Our U.S. provision for income taxes relates to current tax expense associated with taxable income that could not be offset by net operating losses or research and development credits. The utilization of our remaining federal net operating losses is subject to an 80% taxable income limitation and for certain states we have no net operating losses remaining to offset state taxable income or the utilization of the remaining state net operating losses are subject to a limitation. We have also recorded a foreign provision for income taxes related to our wholly-owned subsidiary in Switzerland.

[Table of Contents](#)

We account for uncertainty in income taxes recognized in the condensed consolidated financial statements by applying a two-step process to determine the amount of tax benefit to be recognized. First, the tax position must be evaluated to determine the likelihood that it will be sustained upon external examination by the taxing authorities. If the tax position is deemed more-likely-than-not to be sustained, the tax position is then assessed to determine the amount of benefit to recognize in the condensed consolidated financial statements. The amount of the benefit that may be recognized is the largest amount that has a greater than 50% likelihood of being realized upon ultimate settlement. The provision for income taxes includes the effects of any resulting tax reserves, or unrecognized tax benefits, that are considered appropriate as well as the related net interest and penalties.

Results of Operations

The following table sets forth, for the periods indicated, our results of operations:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2025	2024	2025	2024
	(Unaudited, in thousands)			
Revenue:				
Net product revenue	\$ 100,779	\$ 130,234	\$ 187,472	\$ 240,210
Grant income	226	—	226	—
Total revenue	101,005	130,234	187,698	240,210
Operating expenses:				
Cost of goods sold	27,630	29,198	51,353	57,894
Selling, general and administrative	73,810	76,540	146,319	148,862
Research and development	10,395	15,587	21,035	28,397
Write-down to fair value for asset held for sale	1,746	—	8,313	—
Impairment of property and construction	—	18,842	—	18,842
Write-down of capitalized internal-use software costs	—	3,959	—	3,959
Total operating expenses	113,581	144,126	227,020	257,954
Loss from operations	(12,576)	(13,892)	(39,322)	(17,744)
Other income (expense), net:				
Interest income (expense), net	669	(620)	1,630	(1,134)
Other income (expense), net	73	(28)	75	(5)
Total other income (expense), net	742	(648)	1,705	(1,139)
Net loss before income taxes	(11,834)	(14,540)	(37,617)	(18,883)
Income tax benefit (expense)	2,442	(2,503)	9,382	(260)
Net loss and comprehensive loss	\$ (9,392)	\$ (17,043)	\$ (28,235)	\$ (19,143)

EBITDA and Adjusted EBITDA

Our management uses financial measures that are not in accordance with GAAP (Non-GAAP), in addition to financial measures in accordance with GAAP, to evaluate our operating results. These Non-GAAP financial measures should be considered supplemental to, and not a substitute for, our reported financial results prepared in accordance with GAAP. Our management uses Adjusted EBITDA to evaluate our operating performance and trends and make planning decisions. Our management believes Adjusted EBITDA helps identify underlying trends in our business that could otherwise be masked by the effect of the items that we exclude. Accordingly, we believe that Adjusted EBITDA provides useful information to investors and others in understanding and evaluating our operating results, enhancing the overall understanding of our past performance and future prospects, and allowing for greater transparency with respect to key financial metrics used by our management in its financial and operational decision-making.

[Table of Contents](#)

The following table presents a reconciliation of GAAP net loss to Non-GAAP EBITDA and Non-GAAP Adjusted EBITDA for each of the periods presented:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2025	2024	2025	2024
	(Unaudited, in thousands)			
Net loss	\$ (9,392)	\$ (17,043)	\$ (28,235)	\$ (19,143)
Interest (income) expense, net	(669)	620	(1,630)	1,134
Income tax (benefit) expense	(2,442)	2,503	(9,382)	260
Depreciation and amortization	3,734	3,366	7,178	6,438
Amortization of intangible assets	841	834	1,683	1,735
EBITDA	(7,928)	(9,720)	(30,386)	(9,576)
Stock-based compensation expense	2,542	2,568	5,909	4,975
Write-down to fair value for asset held for sale (1)	1,746	—	8,313	—
Impairment of property and construction (2)	—	18,842	—	18,842
Write-down of capitalized internal-use software costs (3)	—	3,959	—	3,959
Adjusted EBITDA	\$ (3,640)	\$ 15,649	\$ (16,164)	\$ 18,200

- (1) Amount reflects the fair value adjustment of a purchased building classified as held for sale. See Note 6, *Property and Equipment, Net*.
- (2) Amount reflects the impairment of a purchased building and associated unfinished construction work. See Note 6, *Property and Equipment, Net*.
- (3) Amount reflects the write-down of costs previously capitalized as construction in progress in the development of internal-use software, that the Company determined have no future value. See Note 6, *Property and Equipment, Net*.

Comparison of Three and Six Months Ended June 30, 2025 and 2024

Revenue

	Three Months Ended June 30,		Change	
	2025	2024	\$	%
	(in thousands, except for percentages)			
Advanced Wound Care	\$ 92,696	\$ 123,237	\$ (30,541)	(25%)
Surgical & Sports Medicine	8,083	6,997	1,086	16%
Net product revenue	\$ 100,779	\$ 130,234	\$ (29,455)	(23%)

	Six Months Ended June 30,		Change	
	2025	2024	\$	%
	(in thousands, except for percentages)			
Advanced Wound Care	\$ 172,623	\$ 227,101	\$ (54,478)	(24%)
Surgical & Sports Medicine	14,849	13,109	1,740	13%
Net product revenue	\$ 187,472	\$ 240,210	\$ (52,738)	(22%)

Net product revenue from our Advanced Wound Care products decreased by \$30.5 million, or 25%, to \$92.7 million in the three months ended June 30, 2025, from \$123.2 million in the three months ended June 30, 2024. Net product revenue from our Advanced Wound Care products decreased by \$54.5 million, or 24%, to \$172.6 million in the six months ended June 30, 2025, from \$227.1 million in the six months ended June 30, 2024. The decrease in Advanced Wound Care net product revenue was primarily attributable

to increased ambiguity and disruption in customer behavior following the delayed implementation of the LCDs announced in January 2025.

[Table of Contents](#)

Net product revenue from our Surgical & Sports Medicine products increased by \$1.1 million, or 16%, to \$8.1 million in the three months ended June 30, 2025, from \$7.0 million in the three months ended June 30, 2024. Net product revenue from our Surgical & Sports Medicine products increased by \$1.7 million, or 13%, to \$14.8 million in the six months ended June 30, 2025 from \$13.1 million in the six months ended June 30, 2024. The increase in Surgical & Sports Medicine net product revenue was primarily due to an increase in certain customer buying patterns.

Cost of Goods Sold and Gross Profit

	Three Months Ended June 30,		Change	
	2025	2024	\$	%
	(in thousands, except for percentages)			
Cost of goods sold	\$ 27,630	\$ 29,198	\$ (1,568)	(5%)
Gross profit	\$ 73,149	\$ 101,036	\$ (27,887)	(28%)

	Six Months Ended June 30,		Change	
	2025	2024	\$	%
	(in thousands, except for percentages)			
Cost of goods sold	\$ 51,353	\$ 57,894	\$ (6,541)	(11%)
Gross profit	\$ 136,119	\$ 182,316	\$ (46,197)	(25%)

Cost of goods sold decreased by \$1.6 million, or 5%, to \$27.6 million in the three months ended June 30, 2025, from \$29.2 million in the three months ended June 30, 2024. Cost of goods sold decreased by \$6.5 million, or 11%, to \$51.4 million in the six months ended June 30, 2025, from \$57.9 million in the six months ended June 30, 2024. The decrease in cost of goods sold was primarily due to a decrease in sales volume as well as a shift in product mix.

Gross profit decreased by \$27.9 million, or 28%, to \$73.1 million in the three months ended June 30, 2025, from \$101.0 million in the three months ended June 30, 2024. Gross profit decreased by \$46.2 million, or 25%, to \$136.1 million in the six months ended June 30, 2025, from \$182.3 million in the six months ended June 30, 2024. Gross profit decreased as a percentage of revenue due to a shift in product mix.

Research and Development Expenses

	Three Months Ended June 30,		Change	
	2025	2024	\$	%
	(in thousands, except for percentages)			
Research and development	\$ 10,395	\$ 15,587	\$ (5,192)	(33%)

	Six Months Ended June 30,		Change	
	2025	2024	\$	%
	(in thousands, except for percentages)			
Research and development	\$ 21,035	\$ 28,397	\$ (7,362)	(26%)

Research and development expenses decreased by \$5.2 million, or 33%, to \$10.4 million in the three months ended June 30, 2025, from \$15.6 million in the three months ended June 30, 2024. Research and development expenses decreased by \$7.4 million, or 26%, to \$21.0 million in the six months ended June 30, 2025, from \$28.4 million in the six months ended June 30, 2024. The decrease in research and development expenses was primarily due to a decrease in expenses associated with clinical research and trials.

Selling, General and Administrative Expenses

	Three Months Ended June 30,		Change	
	2025	2024	\$	%
(in thousands, except for percentages)				
Selling, general and administrative	\$ 73,810	\$ 76,540	\$ (2,730)	(4%)

	Six Months Ended June 30,		Change	
	2025	2024	\$	%
(in thousands, except for percentages)				
Selling, general and administrative	\$ 146,319	\$ 148,862	\$ (2,543)	(2%)

Selling, general and administrative expenses decreased by \$2.7 million, or 4%, to \$73.8 million in the three months ended June 30, 2025, from \$76.5 million in the three months ended June 30, 2024. The decrease in selling, general and administrative expenses was primarily due to a \$5.9 million decrease in commissions and royalty expense due to decreased sales. These decreases in expenses were partially offset by a \$0.8 million increase in facilities expense, a \$1.5 million increase in marketing expenses, and a \$1.2 million increase in the allowance for expected credit losses.

Selling, general and administrative expenses decreased by \$2.5 million, or 2%, to \$146.3 million in the six months ended June 30, 2025, from \$148.9 million in the six months ended June 30, 2024. The decrease in selling, general and administrative expenses was primarily due to a \$9.4 million decrease in commissions and royalty expense due to decreased sales. These decreases in expenses were partially offset by a \$4.0 million increase in headcount-related expenses and facilities expense, a \$1.3 million increase in marketing expenses, and a \$1.1 million increase in the allowance for expected credit losses.

Impairment and Write-Down Expenses

During the three and six months ended June 30, 2025, we recorded a \$1.7 million and \$8.3 million, respectively, write-down of costs to adjust certain assets held for sale to their fair market value. During the three and six months ended June 30, 2024, we recorded a \$4.0 million write-down of costs related to internal-use software and an \$18.8 million impairment of a purchased building and associated unfinished construction work. See Note 6, Property and Equipment, Net, to our condensed consolidated financial statements included in this Form 10-Q.

Other Income (Expense), net

Other income (expense) net, decreased by \$1.4 million to \$0.7 million in income in the three months ended June 30, 2025, from \$0.6 million in expense in the three months ended June 30, 2024. Other income (expense), net, decreased by \$2.8 million to \$1.7 million in income in the six months ended June 30, 2025, from \$1.1 million in expense in the six months ended June 30, 2024. The decrease resulted primarily from interest income generated from our interest-bearing sweep accounts offset by amortization of debt discount and debt issuance costs.

Income Tax Benefit (Expense)

	Three Months Ended June 30,		Change	
	2025	2024	\$	%
(in thousands, except for percentages)				
Income tax benefit (expense)	\$ 2,442	\$ (2,503)	\$ 4,945	(198%)

	Six Months Ended June 30,		Change	
	2025	2024	\$	%
	(in thousands, except for percentages)			
Income tax benefit (expense)	\$ 9,382	\$ (260)	\$ 9,642	(3708%)

[Table of Contents](#)

Income tax expense decreased by \$4.9 million, or 198%, to a benefit of \$2.4 million in the three months ended June 30, 2025, from expense of \$2.5 million in the three months ended June 30, 2024. Income tax expense decreased by \$9.6 million, or 3708%, to a benefit of \$9.4 million in the six months ended June 30, 2025, from expense of \$0.3 million in the six months ended June 30, 2024. The change in the income tax benefit (expense) is primarily attributable to a higher estimated effective tax rate for the twelve months ending December 31, 2025 resulting from an increase in expected pre-tax income in 2025 compared to 2024, partially offset by our research and development tax credits.

Liquidity and Capital Resources

As of June 30, 2025, we had working capital of \$189.1 million, which included \$73.1 million in cash and cash equivalents. We expect that our cash on hand and other components of working capital as of June 30, 2025, plus net cash flows from product sales will be sufficient to fund our operating expenses, capital expenditure requirements and debt service payments for at least 12 months beyond the filing date of this Form 10-Q.

Our primary uses of cash are working capital requirements, capital expenditures and debt service payments. Additionally, from time to time, we may use capital for acquisitions and other investing and financing activities. Working capital is used principally for our personnel as well as manufacturing costs related to the production of our products. Our working capital requirements vary from period to period depending on manufacturing volumes, the timing of shipments and the payment cycles of our customers and payers. Our capital expenditures consist primarily of building improvements (including costs related to the build-out of our Smithfield, Rhode Island facility), manufacturing equipment, and computer hardware and software.

To the extent additional funds are necessary to meet our long-term liquidity needs as we continue to execute on our business strategy, we anticipate that they will be obtained through additional equity or debt financings, other strategic transactions or a combination of these potential sources of funds. There can be no assurance that we will be able to obtain additional funds on terms acceptable to us, on a timely basis, or at all.

Cash Flows

The following table summarizes our cash flows for each of the periods presented:

	Six Months Ended June 30,	
	2025	2024
	(in thousands)	
Net cash used in operating activities	\$ (52,808)	\$ (5,424)
Net cash used in investing activities	(7,264)	(4,102)
Net cash used in financing activities	(2,344)	(4,335)
Net change in cash, cash equivalents and restricted cash	<u>\$ (62,416)</u>	<u>\$ (13,861)</u>

Operating Activities

During the six months ended June 30, 2025, net cash used in operating activities was \$52.8 million, resulting from our net loss of \$28.2 million and net cash used in connection with changes in our operating assets and liabilities of \$58.8 million, partially offset by non-cash charges of \$34.3 million. Net cash used in changes in our operating assets and liabilities included an increase in inventory of \$15.9 million, an increase in accounts receivable of \$13.6 million, an increase in prepaid expenses and other current assets and other assets of \$12.9 million, a decrease in accrued expenses and other current liabilities of \$13.9 million, and a decrease in operating lease liabilities of \$4.1 million, partially offset by an increase in accounts payable of \$1.6 million.

During the six months ended June 30, 2024, net cash used in operating activities was \$5.4 million, resulting from our net loss of \$19.1 million and net cash used in connection with changes in our operating assets and liabilities of \$28.3 million, partially offset by net non-cash charges of \$42.0 million. Changes in our operating assets and liabilities included an increase in inventory of \$2.0 million, an increase in prepaid expenses and other current assets of \$0.4 million, an increase in accounts receivable of \$26.0 million, a decrease in operating lease liabilities of \$5.9 million, and a decrease in accounts payable of \$2.1 million, partially offset by an increase in accrued expenses and other current liabilities of \$8.2 million, and an increase in other liabilities of \$0.1 million.

Investing Activities

During the six months ended June 30, 2025, we used \$7.3 million of cash in investing activities consisting exclusively of capital expenditures.

During the six months ended June 30, 2024, we used \$4.1 million of cash in investing activities consisting exclusively of capital expenditures.

[Table of Contents](#)

Financing Activities

During the six months ended June 30, 2025, net cash used in financing activities was \$2.3 million. This consisted of principal payments on finance lease obligations of \$0.6 million and net cash payments associated with our stock awards activities of \$1.8 million.

During the six months ended June 30, 2024, net cash used in financing activities was \$4.3 million. This consisted of the principal payment on our term loan of \$2.8 million, principal payments on finance lease obligations of \$0.5 million, and net cash payments associated with our stock awards activities of \$1.0 million.

Indebtedness

2021 Credit Agreement

In August 2021, we and our subsidiaries entered into a credit agreement with SVB and several other lenders (the “Lenders”), which we refer to as the 2021 Credit Agreement. The 2021 Credit Agreement, as amended, provides for a term loan facility not to exceed \$75.0 million (the “Term Loan Facility”) and a revolving credit facility not to exceed \$125.0 million (the “Revolving Facility”). In November 2024, we and the Lenders amended the 2021 Credit Agreement to allow for the issuance of the Convertible Preferred Stock, and to require the repayment of the Term Loan Facility within one business day of such issuance, among other terms (the “2024 Amendment”). In August 2025, we and the Lenders amended the 2021 Credit Agreement (the “2025 Amendment”) to provide that so long as there are no outstanding borrowings under the Revolving Facility, the Consolidated Fixed Charge Coverage Ratio (described below) covenant shall not be tested for the fiscal quarter ended June 30, 2025. Notwithstanding this testing accommodation for the quarter ended June 30, 2025, the covenant is deemed to be in effect for purposes of any transaction contemplated by the 2021 Credit Agreement that requires pro forma compliance with the Consolidated Fixed Charge Coverage Ratio or the financial covenants generally and would preclude us from any additional borrowing under the Revolving Facility unless waived or further amended. The 2025 Amendment further requires us, our subsidiary guarantors, the administrative agent and certain of the Lenders prior to September 30, 2025 to enter into an agreement to reset certain financial covenants or implement new financial covenants and implement other modifications to the 2021 Credit Agreement and related documents, on terms and conditions reasonably acceptable to the administrative agent and such Lenders. The Lenders shall have no further obligation to make revolving extensions of credit under the 2021 Credit Agreement until such an agreement has been executed, and our failure to enter into such an agreement shall constitute an event of default under the 2021 Credit Agreement. Notwithstanding this obligation, we have the right to terminate the 2021 Credit Agreement for our convenience prior to such date, and we expect that the cash on hand and other components of working capital as of June 30, 2025, plus net cash flows from product sales will be sufficient to fund our operating expenses, capital expenditure requirements and debt service payments for at least 12 months beyond the filing date of this Form 10-Q.

Advances made under the 2021 Credit Agreement were either SOFR Loans or ABR Loans, at our option. For SOFR Loans, the interest rate was a per annum interest rate equal to the Adjusted Term SOFR plus an Applicable Margin between 2.00% to 3.25% based on the Total Net Leverage Ratio. For ABR Loans, the interest rate was equal to (1) the highest of (a) the Wall Street Journal Prime Rate, (b) the Federal Funds Rate plus 0.50% and (c) the Adjusted Term SOFR rate plus 1.0%, *plus* (2) an Applicable Margin between 1.00% to 2.25% based on the Total Net Leverage Ratio.

The 2021 Credit Agreement required us to make consecutive quarterly installment payments equal to the following: (a) from September 30, 2021 through and including June 30, 2022, \$0.5 million; (b) from September 30, 2022 through and including June 30, 2023, \$0.9 million; (c) from September 30, 2023 through and including June 30, 2025, \$1.4 million and (d) from September 30, 2025 and the last day of each quarter thereafter until August 6, 2026 (the “Term Loan Maturity Date”), \$1.9 million. We prepaid the Term Loan Facility in November 2024, and amounts borrowed under the Term Loan Facility may not be re-borrowed.

We must pay in arrears, on the first day of each quarter prior to August 6, 2026 (the “Revolving Termination Date”) and on the Revolving Termination Date, a fee for our non-use of available funds (the “Commitment Fee”). The Commitment Fee rate is between 0.25% to 0.45% based on the Total Net Leverage Ratio. We may elect to reduce or terminate the Revolving Facility in its entirety at any time by repaying all outstanding principal and unpaid accrued interest.

Under the 2021 Credit Agreement as amended by the 2024 Amendment, we are required to comply with certain financial covenants including the Consolidated Fixed Charge Coverage Ratio and Consolidated Total Net Leverage Ratio, tested quarterly. In addition, we are also required to make representations and warranties and comply with certain non-financial covenants that are customary in loan agreements of this type, including restrictions on the payment of dividends, repurchase of stock, incurrence of indebtedness, dispositions and acquisitions.

[Table of Contents](#)

As of June 30, 2025 and December 31, 2024, we did not have outstanding borrowings under our Term Loan Facility or our Revolving Facility.

Critical Accounting Policies and Significant Judgments and Estimates

Our unaudited condensed consolidated financial statements have been prepared in accordance with GAAP. The preparation of unaudited condensed consolidated financial statements requires us to make estimates, assumptions and judgments that affect the reported amounts of assets, liabilities, and the disclosure at the date of the unaudited condensed consolidated financial statements, as well as revenue and expenses recorded during the reporting periods. Management bases its estimates, assumptions and judgments on historical experience and on various other factors that it believes to be reasonable under the circumstances. Different assumptions and judgments would change the estimates used in the preparation of our unaudited condensed consolidated financial statements, which, in turn, could materially change our results from those reported. Management evaluates its estimates, assumptions and judgments on an ongoing basis. Historically, our critical accounting estimates have not differed materially from actual results. However, if our assumptions change, we may need to revise our estimates, or take other corrective actions, either of which may also have a material adverse effect on our condensed consolidated statements of operations and comprehensive loss, liquidity and financial condition. See also our Annual Report on Form 10-K for the fiscal year ended December 31, 2024, for information about these accounting policies as well as a description of our other significant accounting policies.

Off-Balance Sheet Arrangements

We did not have, during the periods presented, and we do not currently have, any off-balance sheet arrangements, as defined in the rules and regulations of the SEC.

Recently Issued Accounting Pronouncements

We have reviewed all recently issued standards as disclosed in Note 2, *Summary of Significant Accounting Policies* to our condensed consolidated financial statements included in this Form 10-Q.

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

During the six months ended June 30, 2025, there were no material changes to our market risk disclosures as set forth in Part II, Item 7A, “Quantitative and Qualitative Disclosures About Market Risk” in our Annual Report on Form 10-K for the fiscal year ended December 31, 2024.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

Our management, with the participation of our principal executive officer and principal financial officer, evaluated the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended, or the Exchange Act). Based upon that evaluation, our management, including our principal executive officer and our principal financial officer, concluded that, as of June 30, 2025, our disclosure controls and procedures are effective and designed to ensure that the information required to be disclosed in our reports filed or submitted under the Exchange Act is recorded, processed, summarized and reported within the requisite time periods.

Changes in Internal Control Over Financial Reporting

There were no changes in our internal controls over financial reporting that occurred during the quarter ended June 30, 2025 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II – OTHER INFORMATION

Item 1. Legal Proceedings

As disclosed in our Annual Report on Form 10-K for the fiscal year ended December 31, 2024, on January 22, 2025, the Company was served with a complaint captioned United States of America, State of Texas, ex rel. John Doe vs. Organogenesis Holdings, Inc., which was filed in the United States District Court for the Southern District of Texas. The complaint was brought by an

employee the Company terminated. The United States and the State of Texas each declined to intervene in the case in September 2024. The complaint alleged claims pursuant to the United States False Claims Act and the Texas State Medicaid Fraud Prevention Act, seeking unquantified damages as well as fines, attorneys' fees and other costs. On March 31, 2025, the Company filed a Motion to

[Table of Contents](#)

Dismiss the Complaint in its entirety. On May 19, 2025, shortly before a response was due, the plaintiff filed a notice of dismissal without prejudice which was accepted by the Court. The United States and the State of Texas both consented to the dismissal.

We are not a party to any other material legal proceedings. From time to time, we may become involved in litigation or other legal proceedings relating to claims arising from the ordinary course of business. These matters may include intellectual property, employment and other general claims. With respect to our outstanding legal matters, based on our current knowledge, we believe that the amount or range of reasonably possible loss will not, either individually or in the aggregate, have a material adverse effect on our business, consolidated financial position, results of operations, or cash flows. However, the outcome of such legal matters is inherently unpredictable and subject to significant uncertainties.

Item 1A. Risk Factors

Investing in our Class A common stock involves a high degree of risk. Our Annual Report on Form 10-K for the year ended December 31, 2024, includes a detailed discussion of our risk factors under the heading “Part I, Item 1A—Risk Factors.” Except as set forth below, there have been no material changes from such risk factors during the quarter ended June 30, 2025. You should consider carefully the risk factors discussed in our Annual Report on Form 10-K for the year ended December 31, 2024, and all other information contained in or incorporated by reference in this Form 10-Q before making an investment decision. If any of the risks discussed in the Annual Report on Form 10-K for the year ended December 31, 2024, or herein actually occur, they may materially harm our business, financial condition, operating results, cash flows or growth prospects. As a result, the market price of our Class A common stock could decline, and you could lose all or part of your investment. Additional risks and uncertainties that are not yet identified or that we think are immaterial may also materially harm our business, financial condition, operating results, cash flows or growth prospects and could result in a complete loss of your investment.

Seven MACs recently published new proposed LCDs, for skin substitute grafts/CTPs for the treatment of DFUs and VLUs in the Medicare population that list certain of our products as non-covered. If the final LCDs include this non-coverage determination, it could, at least in the near term, have a material adverse effect on utilization of these products, our business and our revenue.

On April 25, 2024, seven MACs (CGS, WPS, NGS, Palmetto, Novitas, First Coast Services, and Noridian) published new proposed LCDs for skin substitute grafts/CTPs for the treatment of DFUs and VLUs in the Medicare population. These LCDs were finalized by the MACs on November 14, 2024, and were originally set to become effective on February 12, 2025. However, on January 24, 2025, the MACs announced a delay in the implementation of the LCDs until April 13, 2025, and on April 10, 2025, the MACs announced another delay in the implementation of the LCDs until January 1, 2026. Under the new LCDs finalized in November 2024, should they take effect in their current form, a total of eighteen products would remain covered, including our Apligraf and Dermagraft products for DFUs and VLUs, and our Affinity and NuShield products for DFUs; however, more than 200 products would be classified as “non-covered,” including our PuraPly, PuraPly AM, PuraPly XT, Novachor, TransCyte, Dual and Matrix products for DFUs and VLUs. It is uncertain if there will be further delays in implementing the new LCDs and/or if the new LCDs will be revised or rescinded going forward. If implemented, the LCDs could materially impact utilization of these products, our business, and our revenue. Any future changes or other developments related to these or other LCDs also could affect utilization of our products, our business, and our revenue.

CMS proposed rule including proposed policy changes for Medicare payments under the PFS for skin substitute products in calendar year 2026 could have a material adverse effect on utilization of our products, our business and our revenue.

In July 2025, CMS issued proposed rules that announce and solicit comments on proposed policy changes for Medicare payments under the PFS and OPPS, and other Medicare Part B issues, effective on or after January 1, 2026. For calendar year 2026, CMS has proposed to pay for skin substitute products as incident-to supplies when they are used as part of a covered application procedure paid under the PFS in the non-facility setting or under the Medicare OPPS in the hospital outpatient department setting. CMS also proposed to align skin substitute categorization consistent with their FDA regulatory status, such as 361 HCT/Ps, PMAs and 510(k)s. CMS indicated that it believes grouping and paying for skin substitute products based on relevant product characteristics, consistent with their FDA regulatory status, recognizes the clinical and resource differences in product types and would incentivize competition to create more innovative products, while also resulting in significant savings to the Medicare Trust Fund. CMS proposed, for calendar year 2026, to use a single payment rate reflecting the highest average for these three categories of skin substitute products to ensure it is not underestimating the resources involved with furnishing these services. For future years, CMS intends to propose payment rates that differentiate between the three FDA regulatory categories. CMS is proposing to implement these policy changes in both the non-facility setting paid under the PFS and the hospital outpatient department setting paid under OPPS to remain consistent across these different sites of care. While we believe CMS’ proposed payment structure will curb abuse under the current system, and the resulting rapid

escalation in Medicare spending, and ensure a much-needed consistent payment approach across sites of care, the changes could also materially impact utilization of our products, our business, and our revenue.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

None.

Item 3. Defaults Upon Senior Securities

None.

Item 4. Mine Safety Disclosures

Not Applicable.

Item 5. Other Information

During the three months ended June 30, 2025, no director or officer of the Company adopted or terminated a “Rule 10b5-1 trading arrangement” or “non-rule 10b5-1 trading arrangement,” as each term is defined in item 408(a) of Regulation S-K.
